

CHECKLIST

Japanese knotweed management checklist for commercial landowners

- ☐ Commission a survey to confirm identification and map the infestation
- ☐ Obtain a management plan from a qualified contractor
- ☐ Notify neighbouring landowners and statutory consultees
- ☐ Engage a licensed contractor with professional indemnity insurance
- ☐ Ensure waste carriers and disposal sites are properly licensed
- ☐ Monitor the site throughout and after treatment
- ☐ Keep records of surveys, treatment dates and waste transfer notes
- ☐ Check for regrowth annually for at least five years after final treatment
